AMENDMENTS TO THE CLAIMS

IN THE CLAIMS

Please cancel claims 1-4 and add new claims 5-6 as follows:

Please add the new claims 5 and 6 as follows:

5. (New) An integrated wiring system for a false ceiling comprising:

a ceiling panel support structure defining an open grid for supporting ceiling panels;

a plurality of ceiling panel assemblies, each ceiling panel assembly being hollow and including a core panel of rectangular shape and size dictated by the openings of said grid;

each panel assembly further including depending spacers at the corners of said rectangular core panels;

some of said spacers further including bridging members that extend across and between adjacent spacers in a panel for supporting wires and cables below said core panel; and

decorative panels supported from said spacers to further define said hollow panel assembly for the wiring system.

6. (New) The integrated ceiling and wireway system according to claim 5 further including dividers provided between adjacent spacers, said dividers oriented perpendicular to said bridging members whereby separate wireways are provided in said hollow ceiling panel assemblies to isolate high voltage from low voltage wiring.
